

# Street Audubon Center

The Howe House is the home of Lake Region Audubon Society and Street Audubon Center. The house, built of cypress wood, is over 80 years-old. Luella Street donated the house and 42 acres on Lake Ned to Audubon in the 1970s. Mabel Howe donated money to move the building to the present location. Leashed dogs are permitted on trails; bicycles and horses are not. In case of severe fire conditions or other emergency, the gate may be locked.

## TRAIL ENTRANCE

115 Lameraux Rd,  
Winter Haven, FL

## GPS COORDINATES:

N 27° 59.741 W 081° 40.008

## TREK TEN CACHE COORDINATES:

N27° 59.675 W 081° 40.055

## FIND THE CACHE WITHOUT GPS:

Park in the parking area. Walk back towards Lameraux Road and take the trail closest to the road on the left (North). You will go right around a small pit. Bear right at the first fork and right at the second fork. Go left when you see the white fence on your right. When you reach the fork at the pond, go left. At the end of the pond go right and walk behind the nature center to the Norton Agey Nature Trail kiosk. Follow that trail until it dead-ends then go left. When the trail forks, go left on the wider trail bearing right up the hill. Keep on the main trail until you reach the pavilion on the lake. From the pavilion, look at the large stand of bamboo. The cache is behind the bamboo on the left. Continue following the trail along the lakefront until you see a house and fence. Before you reach the fence take the trail on your left. Bear right at the next fork and continue bearing right until you are back at the entrance road to go back to the parking area.

(HIKE 0.75 mile round trip)

## THINGS TO SEE

The Lake Trail provides an opportunity see water birds along the edges of Lake Ned. A resident gopher tortoise can sometimes be spotted. A variety of birds frequent the canopy of trees that shade the trails. Butterflies visit the gardens near the Howe House. The Center is on the Great Florida Birding Trail. Two trails run through the sanctuary - one along the edge of Lake Ned and the other along the high dry ridge and the large butterfly garden.
