TREK 10 TRAILS

Bok Tower Gardens, Preserve Trail

This moderate walking trail engages and inspires learners of all ages about one of Florida's most endangered ecosystems and ongoing restoration efforts. Some of this land is an original Longleaf Pine forest, while some is former citrus grove being restored to Longleaf Pine. Interpretive signs tell about the flora, fauna and wildlife of this habitat, the ecological role of fire, and the natural history of the Lake Wales Ridge.

FIND CACHE WITHOUT GPS:

After parking walk to the east side of the parking lot and enter Pine Ridge Preserve trail at the picnic area (see small gazebo structure). Follow the trail bearing right at the Y (before the bench) and continue across the paved road onto the gravel trail which is the Preserve Trail. Follow the arrow to the Knoll (interpretative sign says Ancient Islands) then on to the next hill past the sign "Birds of Prey" continuing until you reach the "Longleaf Pine" sign. Cross the paved road and turn right (south) following the road just past the clay road to rejoin the gravel trail. Continue until you reach a group of oak trees on your left (east) just before the trail descends a sharp incline. The cache is under the oak on the south side of that group of trees.

(HIKE: 1.5 mile round trip)
